## Underlying

Underlying	Identifier	Relevant Exchange	Currency
OTP Bank PLC	HU0000061726	Budapest Stock Exchange	HUF
MOL Hungarian Oil & Gas PLC	HU000015393	Budapest Stock Exchange	HUF
Richter Gedeon Nyrt	HU0000123096	Budapest Stock Exchange	HUF

## Type

This product is an unsecured debt instrument governed by English law.

## Objectives

This product is designed to provide a return when the product is redeemed (either at maturity or when redeemed early). It is possible for the product to be automatically redeemed early based on pre-defined conditions. If the product is not redeemed early, the capital redemption amount is linked to the performance of the Reference Underlying. Your capital will be fully at risk when investing in this product.

The Average Basket is an equally weighted basket composed of the underlyings.

The Reference Underlying is the Underlying with the lowest observed level on the relevant observation.

### Automatic Early Redemption :

On any Early Redemption Observation Date, if the Level of Average Basket is at or above the Early Redemption Barrier, the product will be redeemed early and you will receive:

100% of the Nominal Value plus the Early Redemption Coupon multiplied by the number of semi-annual periods the product has elapsed since inception.

### Final Redemption :

On the Maturity Date, provided that the product has not been redeemed early, you will receive a final redemption amount.

If the Final Level of the Average Basket is at or above the Final Barrier, you will receive:

100% of the Nominal Value plus the Final Coupon.

Otherwise, you will receive physical delivery of the Reference Underlying. The number of shares to be delivered will be equal to the Nominal Value divided by the Initial Value of the Reference Underlying. If the number of shares to be delivered does not equal a whole number, the number of shares to be delivered will be rounded down and the remaining amount will be paid in cash. As the value of the physical delivery is expected to be below the value of your initial investment when you receive the delivery, you are therefore likely to suffer a partial or total loss of your invested amount in this scenario.

### Additional Information :

The level of each Underlying corresponds to its value expressed as a percentage of its Initial Value.

The Initial Value of each Underlying is its value observed on the Initial Observation Date.

The Final Level of the Reference Underlying is its level observed on the Final Observation Date.

Extraordinary events may lead to changes to the product's terms or the early termination of the product and could result in losses on your investment

## Calendar

Issue Date	27/05/2020
Initial Observation Date	20/05/2020
Final Observation Date	20/05/2022
Maturity Date	27/05/2022
Early Redemption Observation Dates	20/05/2021, 22/11/2021

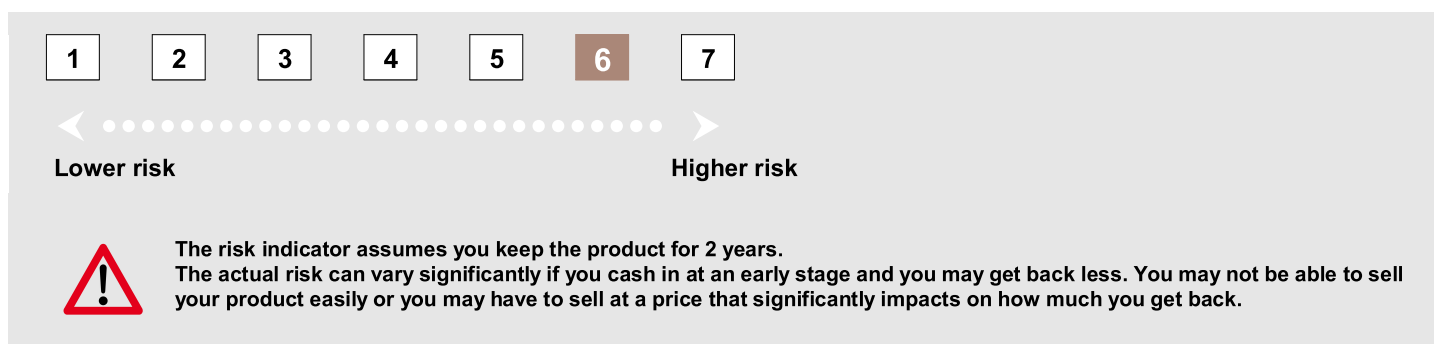

## Intended Retail Investor

The product is aimed at investors who:

- Have specific knowledge or experience of investing in similar products and in financial markets, and have the ability to understand the product and its risks and rewards.
- Seek a product offering growth and have an investment horizon in line with the recommended holding period stated below.
- Are able to bear total loss of their investment and accept the risk that the Issuer and / or Guarantor could fail to pay the capital and any potential return.
- Are willing to accept a level of risk to achieve potential returns that is consistent with the summary risk indicator shown below.

## WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

### Summary Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 6 out of 7, which is the second-highest risk class.

This rates the potential losses from future performance at a high level, and poor market conditions are very unlikely to impact our capacity to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

### Performance Scenarios

Investment HUF 10,000,000.00		1 year	2 years
Scenarios		(Recommended holding period)	
<b>Stress scenario</b>	<b>What you might get back after costs</b> Average return each year	HUF 1,266,305.79 -87.34%	HUF 4,089,394.22 -36.05%
<b>Unfavourable scenario</b>	<b>What you might get back after costs</b> Average return each year	HUF 7,546,855.84 -24.53%	HUF 6,279,208.86 -20.76%
<b>Moderate scenario</b>	<b>What you might get back after costs</b> Average return each year	HUF 11,196,667.34 11.97%	HUF 11,200,000.00 5.83%
<b>Favourable scenario</b>	<b>What you might get back after costs</b> Average return each year	HUF 11,196,667.34 11.97%	HUF 11,800,000.00 8.63%

This table shows the money you could get back over the next 2 years, under different scenarios, assuming that you invest HUF 10,000,000.00.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

## WHAT HAPPENS IF SOCIÉTÉ GÉNÉRALE IS UNABLE TO PAY OUT?

If the Issuer defaults you may only claim any unpaid amount from Société Générale (the Guarantor). Should Société Générale default or file for bankruptcy, you may suffer a partial or total loss of the invested amount. If the Issuer and/or the Guarantor becomes subject to resolution measures in the form of the bail-in tool ("bail-in"), your claim may be reduced to zero, converted into equity or its maturity may be postponed. Please be aware that your Investment is not covered by any investor compensation or guarantee scheme.

Please find the ratings of Société Générale at <https://www.societegenerale.com/en/measuring-our-performance/investors/debt-investors/ratings>.

## WHAT ARE THE COSTS?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for different holding periods. They include potential early exit penalties. The figures assume you invest HUF 10,000,000.00. The figures are estimates and may change in the future.

### Costs over Time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

#### Investment HUF 10,000,000.00

Scenarios	If you cash in after 1 year	If you cash in at the end of the Recommended Holding Period
<b>Total costs</b>	HUF 665,720.04	HUF 665,918.19
Impact on return (RIY) per year	6.66%	3.10%

### Composition of Costs

The table below shows:

- the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period;
- the meaning of the different cost categories.

#### This table shows the impact on return per year

One-off costs	Entry costs	3.10%	The impact of the costs you pay when entering your investment. The impact of the costs already included in the price.
	Exit costs	0.00%	The impact of the costs of exiting your investment when it matures.
Ongoing costs	Portfolio transaction costs	0.00%	The impact of the costs of us buying and selling underlying investments for the product.
	Other ongoing costs	0.00%	The impact of the costs that we take each year for managing your investments and the costs presented in Section II.

## HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

**Recommended Holding Period: 2 years, which corresponds to the product maturity.**

Under normal market conditions, Société Générale or an entity of its group ensures a daily secondary market during the life of the product by providing bid and offer prices expressed as percentages of the nominal value and the difference between the bid and offer prices (the spread) will not be more than 1% of such nominal value. If you want to sell the product before the Maturity Date, the price of the product will depend on market parameters at the time you wish to sell and you may sustain a partial or total capital loss. In unusual market condition, the resale of the product may be temporarily or permanently suspended.

## HOW CAN I COMPLAIN?

Any complaint regarding the person advising on, or selling, the product can be submitted directly to that person. Any complaint regarding the product or the conduct of the product manufacturer can be submitted to Société Générale at the following address: SOCIÉTÉ GÉNÉRALE, Regulatory Information Department, 17 cours Valmy, 92987 PARIS LA DEFENSE CEDEX, FRANCE - SG-complaints-kid@sgcib.com (<http://kid.sgmarkets.com>).
