## Type

This product is an unsecured debt instrument governed by English law.

## Term

This product has a life span of 2 years but can be redeemed earlier according to the conditions indicated in the "objectives" section below.

## Objectives

The objective of the product is to provide a periodic coupon, which is conditional on the value of the Reference Rate. It is possible for the product to be automatically redeemed early based on pre-defined conditions. The product provides full capital protection at maturity only.

Coupon:

if the product has not been previously redeemed and at the end of each Observation Period, you will receive the Coupon multiplied by the ratio (n/N).

Where:

- n is the number of business days of the Observation Period during which the Reference Rate is observed at or above the Lower Range Barrier and at or below the Upper Range Barrier corresponding to the Observation Period.

- N is the total number of business days in the Observation Period.

An Observation Period corresponds to 6 months and extends from (and including) a Valuation Date to (and excluding) the following Valuation Date.

There are four Observation Periods.

Automatic Early Redemption:

On any Early Redemption Observation Date, if the level of the Reference Rate is at or below the Lower Range Barrier, the product will be redeemed early and you will receive 100% of the Nominal Value in addition to any coupon due for the same period.

Final Redemption:

On the Maturity Date, you will receive 100% of the Nominal Value.

Additional Information:

-The Reference rate is observed daily at the Fixing Time.

- Coupons are expressed as a percentage of the Nominal Value.

- Coupons are paid on the Coupon Payment Dates corresponding to each Observation Period.

- Extraordinary events may lead to changes to the product's terms or the early termination of the product and could result in losses on your investment.

-The product is available through a public offering during the applicable offering period in the following jurisdiction(s): Hungary.

### Intended Retail Investor

The product is aimed at investors who:

- have specific knowledge or experience of investing in similar products and in financial markets, and have the ability to understand the product and its risks and rewards.
- seek a product offering income with full capital protection and have an investment horizon equal to the recommended holding period stated below.
- are able to bear a total loss of their investment and any potential return in case of default of the guarantor or issuer.
- understand that the capital protection only applies at maturity and they could receive less than the capital protection amount if the product is sold beforehand.
- are willing to accept a level of risk to achieve a potential return that is consistent with the summary risk indicator shown below.

## WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

### Summary Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are very unlikely to impact our capacity to pay you.

You are entitled to receive back at least 100% of your capital (where "capital" means Nominal Value and not invested amount). Any amount over this, and any additional return, depends on future market performance and is uncertain. However, this protection against future market performance will not apply if you cash in before the Maturity Date.

If we are not able to pay you what is owed, you could lose your entire investment.

### Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The scenarios shown are illustrations based on results from the past and on certain assumptions. Market could develop very differently in the future.

#### Recommended holding period:

Until the product is called or matures

This may be different in each scenario and is indicated in the table

#### Example Investment:

HUF 10,000,000

Scenarios		If you exit after 1 year	
		If you exit after 1 year	If you exit at call or maturity
<b>Minimum*</b>	HUF 10,000,000	The return is only guaranteed if you hold the product until its maturity date and the Issuer of the product and Société Générale (the Guarantor) are able to meet their obligations under the product.	
<b>Stress</b>	<b>What you might get back after costs</b>	HUF 9,288,256	HUF 10,290,077
Product ends after 2 years 1 day	Average return each year	-6.9%	1.4%
<b>Unfavourable</b>	<b>What you might get back after costs</b>	HUF 10,025,975	HUF 10,801,527
Product ends after 2 years 1 day	Average return each year	0.3%	3.9%
<b>Moderate</b>	<b>What you might get back after costs</b>	HUF 11,384,988	HUF 12,448,459
Product ends after 2 years 1 day	Average return each year	13.5%	11.4%
<b>Favourable</b>	<b>What you might get back after costs</b>	HUF 12,152,628	HUF 12,730,770
Product ends after 1 year 6 months 1 day	Average return each year	20.9%	17.1%

(\* ) the return shown in the Minimum Scenario is the Minimum Reimbursement and does not include other type of return such as guaranteed coupon payments.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

The % figures in the table represent the potential positive (green) or negative (red) returns you might achieve at the end of the recommended holding period (last column) or by selling the product before (previous column) and for a stressed, unfavourable, moderate and favourable scenario (per line).

## WHAT HAPPENS IF SOCIÉTÉ GÉNÉRALE IS UNABLE TO PAY OUT?

If the Issuer defaults you may only claim any unpaid amount from Société Générale (the Guarantor). Should Société Générale default or file for bankruptcy, you may suffer a partial or total loss of the invested amount. If the Issuer and/or the Guarantor becomes subject to resolution measures in the form of the bail-in tool ("bail-in"), your claim may be reduced to zero, converted into equity or its maturity may be postponed. Please be aware that your Investment is not covered by any investor compensation or guarantee scheme.

Please find the ratings of Société Générale at <https://www.societegenerale.com/en/measuring-our-performance/investors/debt-investors/ratings>.

## WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

The duration of this product is uncertain as it may terminate at different times depending on how the market evolves. The amounts shown here consider two different scenarios (early call and maturity). In case you decide to exit before the product ends, exit costs may apply in addition to the amounts shown here.

We have assumed:

- HUF 10,000,000 is invested

- a performance of the product that is consistent with each holding period shown.

	If the product is called at the first possible date 15/04/2024	If the product reaches maturity
<b>Total costs</b>	HUF 621,001	HUF 621,001
Annual cost impact(*)	8.3%	3.6% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at maturity your average return per year is projected to be 15.0% before costs and 11.4% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

### Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	6.2 % of the amount you pay in when entering this investment	HUF 621,000
Exit costs	0.5 % of your investment before it is paid out to you	HUF 50,000

## HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

**Recommended Holding Period: 2 years 1 day, which corresponds to the product maturity.**

Under normal market conditions, Société Générale or an entity of its group ensures a daily secondary market during the life of the product by providing bid and offer prices expressed as percentages of the nominal value and the difference between the bid and offer prices (the spread) will not be more than 1% of such nominal value. If you want to sell the product before the Maturity Date, the price of the product will depend on market parameters at the time you wish to sell and you may sustain a partial or total capital loss. In unusual market condition, the resale of the product may be temporarily or permanently suspended.

## HOW CAN I COMPLAIN?

Any complaint regarding the person advising on, or selling, the product can be submitted directly to that person. Any complaint regarding the product or the conduct of the product manufacturer can be submitted to Société Générale at the following address: SOCIÉTÉ GÉNÉRALE, Regulatory Information Department, 17 cours Valmy, 92987 PARIS LA DEFENSE CEDEX, FRANCE - SG-complaints-kid@sgcib.com (<http://kid.sgmarkets.com>).
