

# announcement

Dear Clients,

Please be informed that a WiFi zone is operated in this branch where K&H Bank clients can access WiFi free of charge.

## Technical information for using the WiFi service:

- You can connect to the **kh-hotspot** network **without a special password or authentication** and use it with a **time limit of 1 hour**.
- This provides a very **convenient** use; however, please note that **data sent through the network is not encrypted and can be viewed by others**. K&H Bank will not assume any responsibility for any event originating from the misuse of the WiFi network. (For further details, please find the link 'Acceptable User Policy' on the log-on screen.)
- The bandwidth of the service will allow you to browse web-sites, receive and send e-mail messages, or visit social media pages. The service cannot be used for accessing multimedia pages or applications generating high data traffic (e.g., downloading films, video-sharing pages).
- Please note that this open access can be used only for browsing standard http and https web pages and cannot be used for any other services.

We trust that you will be satisfied with this new service and it can improve your comfort level while waiting for services in the branch!

K&H Bank
