ON THE BANK ACCOUNTS, DEPOSIT, CASH TRANSACTIONS, BANKCARDS AND INVESTMENTS OF PRIVATE BANKING CUSTOMER

EFFECTIVE AS OF APRIL 1, 2021

PUBLISHED ON FEBRUARY 1, 2021

Internet: www.kh.hu,
www.khprivatebanking.hu

BIC (SWIFT) kód: OKHB HUHB

The conditions of bank account and deposit services herein contained are applicable to the individual customers of K&H Bank Zrt. According to the definition used by the Bank, individuals may be either FX residents or FX non-residents.

Should any contract concluded between the Bank and the Client ("Client Agreement") contain conditions differing from the conditions contained in this List the stipulations of the "Client Agreement" shall be applicable (the "Client Agreement" shall not change the VAT classes of the individual services). The basic principles and rules according to which the Bank performs business activity are contained by the General Terms and Conditions and the relevant General Contractual Terms and Conditions (which are available for the clients of the Bank free of charge).

CALCULATION METHOD OF FEES AND COST ELEMENTS OF THE ANNOUNCEMENT:

Items specified in the Announcement can be modified on April 1 every year at the most by the cumulated inflation rate calculated on the basis of the period passed since the last modification of the price of the item. The fees specified in amount, in percentage, minimum values, maximum values are all deemed to be separate items and can be modified separately. The Announcement contains the date of the last correction of all items.

The cumulated inflation rate is calculated on the basis of the inflation rate of the previous calendar year officially published by the Central Statistic Office.

The modified values of the fees are determined by using the general rules of rounding, in case of specification in percentage, restricted to two decimals. The difference between the result of the cumulated inflation value and the rounded value is taken into consideration by the next modification with the proper sign. The modified Announcement is made available in the branches and published on the home page 2 months before the effective date.

The Bank considers its Announcement of July 31, 2009 the primary announcement for the current calculation of fees.

This amendment is made in accordance with the provisions of Section 10.3 of the General Contracting Terms and Conditions for Bank Accounts, Deposit Accounts and Term Deposit Products provided to Resident and Non-Resident Natural Persons, for the following reasons:

- **In view of the increase in the Bank's procurement cost due to its IT developments related to its activities and operating conditions and necessitated by legislative changes affecting these, the Bank hereby unilaterally amends the conditions set out in the Announcement. The amendment only applies to the annual bank card fees and does not affect transaction fees. The change is based on the following legislation: : Regulation (EU) 2019/518, Directive (EU) 2015/2366 of the European Parliament and of the Council (PSD2), the mandatory Regulatory Technical Standards (RTS) supplementing it, Act LXXXV of 2009 on Payment Services, amended based on these, as well as MNB Decree 35/2017. (XII.14.).**
 - **The Bank hereby unilaterally amends the conditions set out in the Announcement, including transaction fees, in view of the change in the consumer price index.**
 - **The Bank clarifies the range of beneficiary cards provided to the account package, and allows a customer to request more cards of the same type for the same account.**
 - **The bank clarifies the terms and conditions of the K&H mobilbank service,**
- In connection with the changes coming into force on April 1, 2021, in case of non-acceptance of the Announcement - until the day before its entry into force - the contract can be terminated in writing at any K&H Bank branch with immediate effect and free of charge, otherwise, the Bank considers the amendment of the Announcement accepted by the customer.**

- With regard to the acceptance and execution of **other orders**:
 - T day: current day, the day of reception of the order. Unless otherwise indicated, it has to be a banking day.
 - Value date: performance date (value date) specified at the time of accepting the forward-dated transfer, standing order and VIBER transfer order; if it is not a banking day, then the first banking day thereafter. For FX transfers the value date is the nostro/vostro value date. In case of forward-dated transfers, the value date must not be farther in the future, than 90 calendar days from the date of submit of the transfer order. In case of forward-dated transfers via K&H e-bank and mobilbank, the value date must not be farther in the future, than 365 calendar days from the date of receipt of the transfer order.
 - Day: must be a banking day

Orders submitted on bank holidays will be processed by the Bank as if they were submitted on the first workday following a bank holiday.

Payment orders may be submitted in branches during the opening hours of the branch and cash payment orders during the opening hours of the cash desk.

The business hours of bank branches and the business hours of the cash counters in the bank branches may differ at the various bank branches of the Bank.

For the business hours of the bank branches and the cash counters (cash desk opening hours), see the relevant announcement displayed at the given bank branch, the announcement regarding branches with alternative cash desk opening hours, which is available on the Bank's website (Announcement for setting alternative cash desk opening hours). If the submission and execution deadlines in accordance with the rules of reception and execution orders in the relevant Announcement are not line with the business hours of the bank branch, the order shall be submitted within the business hours of the bank branch.

In the case of electronically submitted orders that are either exempt from a transfer fee or have a discounted fee, the discounts will apply to the orders executed earlier. As in the case of payment orders signed simultaneously it is not possible to specify the order of processing, to take advantage of the discounted order fees available in the package it is recommended to sign the items you wish to claim the discount on separately from the other transfers.

Providing sufficient funds:

- For **instant HUF payment orders**, sufficient funds must be provided at the time the order is submitted, otherwise the Bank will refuse the order immediately.
- Debit orders will be executed only when sufficient cover is available in the account. Funds may be paid in HUF accounts to provide cover for intra-Bank HUF payment orders and HUF payment orders by way of GIRO overnight settlement until 6 p.m. on the day of debiting the account, or until the deadline of submission if the HUF transfer is effected via the GIRO Multiple Intraday Settlements Process.
- After the deadline for submission, the Bank will only acknowledge receipt of HUF payment orders (specified under Other orders in Section 4.1.1 of this chapter); order processing and the verification of sufficient funds will only start when the next banking day begins (i.e., at 5.45 a.m.).
- In case of foreign currency transfers, the coverage – and the transfer fee stipulated in the Announcement – must be provided at the time of submitting the order. In case of a foreign currency transfer with conversion, the available balance required for the transaction and the related fee are checked upon the start of processing, at the foreign currency mid-rate I of day T. If the available account balance is insufficient, the transaction order will be rejected even if the balance calculated at the foreign currency rate II is sufficient.

VERY DEFENSIVE: the products ensure a well-balanced return, however, in the long run the annual average amount of return tends to be moderate. Thus, investors realise a low return, at the same time, they only bear a minor risk – the probability of loss is marginal and performance shows low or zero fluctuation.

DEFENSIVE: the higher yield that may be realised on these products is accompanied by a somewhat higher risk: the probability of a loss is higher, but the fluctuation in performance is still limited.

DYNAMIC: the relatively high return on these products is coupled by a relatively high risk: both the probability of incurring a loss and the fluctuation of performance are rather high.

VERY DYNAMIC: there are volatile fluctuations in the yields of these products in the short run, however, they may reach a high value on the annual average in the long run. Thus, both the return and the risk may be excessive: the probability of incurring a loss is high and the fluctuation in performance is also considerable.

6.12 Regular portfolio evaluation

As part of its advisory service, the Bank performs a regular portfolio evaluation for clients that have signed a master agreement on “Particular Financial and Investment Services Used by Private Banking Clients”. It means that the Bank periodically reviews the appropriateness of the investment recommendations provided to these clients, re-evaluates their asset portfolio and updates the personalised investment recommendations previously provided to them. Every year, the Bank delivers a hard copy of the regular evaluation report to the clients at an in-person meeting. The report presents the entire portfolio specifying the amounts invested in each product and the percentage (%) share of each product within the portfolio, as well as the risk scores (category) and the expiration dates (if any). The evaluation of appropriateness presented in the report assesses whether or not the given financial instruments suit the client’s risk rating, and evaluates the concentration of the various products within the portfolio. During the in-person meeting, product-related information is also discussed with clients.

7 Confirmation of performed orders given via telephone, telefax, e-mail

According to Private banking framework agreement contracted after 15th June, 2012 Bank asks its clients to sign the documents below in case of orders given via telephone:

| Megbízás típusa | Aláírandó dokumentum |
|---|----------------------|
| Structured deposits and investments | contract |
| Intrabank transfers (no between own accounts) and interbank (above HUF 500,000) transfers | transfer order form |

8 Applicable tax regulations

Taxation of the return on investments is governed by the effective Act CXVII of 1995 on Personal Income Tax (hereinafter: Income Tax Law). Interest income from debt securities issued from June 01, 2019 by the Hungarian State to natural persons as investment target market, does not considered as income, thus is not subject to interest income tax.

Pursuant to the Income Tax Law, the Bank as payer is obliged to deduct an interest tax from the interest yield on the investments of its private individual clients, and a price gain tax from the income realised as a price gain – plus a health contribution in accordance with, or in the absence of, as statement made by the private individual.

At the same time, in adherence to the legal regulations, the Bank does not deduct the tax payable on the income derived from stock exchange transactions, from supervised capital market deals; or closing of Long-term investment account, or closing of Pension pre-savings account; as such income must be reported and paid by private individuals themselves, in their personal income tax return.

K&H callable dual currency investment is considered to be a supervised capital market deal.
